Navi Mumbai, Maharashtra

PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, PostgreSQL, Python, and Power BI. Experienced in data analysis, KPI reporting, dashboard development, and business performance analysis to support data-driven decision-making.

EDUCATION

Mumbai University

B.E. Electronics & Telecommunication

Navi Mumbai, Maharashtra

2022 – 2025

Pillai HOC College of Engineering & Technology

Diploma in Computer Science

Navi Mumbai, Maharashtra

2019 – 2022

TECHNICAL SKILLS

Tools & Technologies: SQL, PostgreSQL, Python (Pandas, NumPy, Matplotlib, Seaborn), Power BI, Tableau, MS Excel (Pivot Tables, V LOOKUP, X LOOKUP)

Core Skills: Data Analysis, Data Cleaning, Exploratory Data Analysis (EDA), KPI Reporting, Dashboard Development, Data Visualization, Business Intelligence

PROJECTS

HR Analytics & Employee Attrition Analysis | *PostgreSQL, SQL, Python, Pandas, Seaborn* 2026

- Analyzed a workforce dataset of 2,000 employees using PostgreSQL, SQL, and Python to identify attrition trends and workforce patterns.
- Designed SQL indexes, reporting views, and analytical queries to measure department-wise, job role-wise, overtime, work-life balance, and compensation-related attrition metrics.
- Performed data cleaning, exploratory data analysis (EDA), and built visualizations using Pandas, Seaborn, and Matplotlib.
- Identified an overall attrition rate of 18.10%, with Research & Development (21.86%) and Data Analysts (31.34%) showing the highest turnover, and proposed data-driven retention strategies.

End-to-End Sales Analytics Platform | *PostgreSQL, SQL, Python, Power BI* 2026

- Built a relational PostgreSQL database by integrating sales, product, region, salesperson, and target datasets.
- Performed SQL analysis to evaluate revenue, profit, category performance, regional trends, and salesperson target achievement.
- Developed Power BI dashboards for executive reporting, including KPI tracking, revenue trends, profitability analysis, and sales performance monitoring.

Deutsche Bank Financial Performance Analysis | *Prophet, Scikit-Learn, Matplotlib* 2024

- Performed KPI analysis and revenue growth forecasting using time-series modeling techniques.
- Developed forecasting models and prepared performance reports to support management-level decision-making.

Big 4 Financial Risk Analysis | *Python, Pandas, Matplotlib, MS Excel* 2024

- Analyzed financial datasets to identify risk indicators and support audit-focused decision making.
- Built reporting frameworks and data validation processes to improve data quality and compliance tracking.

CERTIFICATIONS

Tata Group - GenAI Powered Data Analytics Virtual Experience Program (Forage)

June 2026

- Conducted exploratory data analysis (EDA) and risk profiling on delinquency datasets.
- Applied predictive analytics techniques for customer risk assessment and delinquency prediction.
- Developed business reports and data-driven recommendations to support collections strategy.
- Generated actionable insights through data storytelling and analytical reporting.
